

## How to Download the CC Ringtone: Options for iPhone, Android, and Windows Smartphone

### iPhone option:

1. Download the attached audio to your computer, and save or import to iTunes.
2. Connect your iPhone to your computer with a USB cable.
3. When your iPhone shows up in the iTunes menu, click on the icon for your phone.
4. In the iPhone menu, click the "Tones" tab. The new ringtone "CCJingle -Ringtone.m4r" will be listed.
5. Select the ringtone and hit "Sync" or "Apply."
6. Disconnect and unplug your phone. Go to "Settings" → "Sounds" → "Ringtone" → find "CCJingle -Ringtone." To apply the ringtone to specific contacts, go to "Contacts" and tap "Edit" for each contact.

### Android option:

1. Download and save the attached audio to your computer.
2. Connect your Android phone to your computer using a USB cable. Unlock your screen if it is locked.
3. If using a PC, you can find your Android phone in the Computer/My Computer window (Win+E). If you are using Mac, an icon for the phone will appear on your desktop. Double click to open. (You will need the [Android File Transfer](#) program.)
4. Open the Ringtones folder. The location may vary depending on the type of android phone. It is most commonly found at /media/audio/ringtones/.
5. Copy the ringtone file into the "Ringtones" folder on your phone. You can click and drag the file from your computer to the "Ringtones" folder, or you can right-click the file and select "copy" and then right-click the "Ringtones" folder and select "paste."
6. Disconnect your phone after the ringtone transfers.
7. Open the Settings app on your phone and select "sound."
8. Tap the "phone ringtone" or "ringtone" option. Select the ringtone from the list and apply to specific contacts or make it your default jingle.

Windows Smartphone option:

1. Download the attached audio to your computer. If you have a PC, you'll use the Zune software. (If you don't have the Zune software on your computer, see [Install the Zune software](#).) On a Mac, use iTunes. (See the iPhone instructions above, and then refer to step 5 below.)
2. Connect your Windows Smartphone to your computer using a USB cable.
3. Find the file under the Ringtone tab. If the file does not appear, right-click on the file and click "edit" → click "genre" → type "ringtone" → click "OK."
4. Click "Sync file to your phone."
5. Disconnect your phone and go to Start; flick left to the App list, then tap "Settings" → "Ringtones + sounds" → tap the ringtone list and find the new ringtone.
